You're not kidding, Charlie Brown! Sure, you can save up to a penny a mile on gas (The Furd Foulcar averages 30 miles to the gallon!), but your doctor bills for strained muscles and slipped discs suffered getting in and out of the darn thing more than make up for it. As *Motor-Mad Magazine* put it: "The Foulcar is a great little car to own, providing you don't drive in it for longer than 12 minutes at a stretch!" We wonder why Foulcar is America's best-selling compact?

THE PRODUCER AND I 3

When we showed this MAD take-off of "The King and I" to the original cast it had a strange effect: mainly, Yul Brynner bald.

TEEVEE UNIVERSITY 10

With colleges planning to offer courses on TV, the future student will have to "channel" his thinking to pass a "test pattern."

TOURIST'S GUIDE TO THE U.S. 15

MAD presents a "Tourist Guide to America" for the European traveler, which should quickly guide him back where he came from.

NAKED TOWN 8

MAD views the new full-hour version of Video's "Naked Town," and decides it's the same turkey with 30 minutes more dressing.

EDUCATIONAL TOYS 6

This article proves that today's Educational Toys can really teach — namely parents, who'll learn not to buy them for the kids.

WARM-UPS FOR EVERYTHING 21

TV shows "warm-up" their audiences before air time. Audiences "warm-up" their MAD magazines after reading time—by burning them.

DIETING 91

This MAD article on the latest craze sweeping the nation, namely "Dieting," is coldly calculated to put the "fat" on the fire.

SHAKESPEARE PRIMER 22

Shakespeare enthusiasts might very well accuse us of butchering the Bard, but it's just our way of bringing home the Bacon.

MAD COVER

You can't kid me, clods! Alfie isn't swinging upside down. The birds are flying upside down and the title "MAD" is printed upside down on the bottom of the cover.

POLITICS IN MAD

In reply to John Spence's letter (Oct. #58) about the ages of his fellow MAD readers being between 13-16 and not being interested in politics: I say that everyone I know who reads MAD is between 21 and 35, and we like politics. And your political articles have been great. Keep up the good work. Us older "kids" dig you the most.

Nan Elwood
Santa Monica, Cal.

I really felt bad when I read that letter of John Spence's in #58. Just thought I'd let you know that not all teenagers feel that way about politics. Keep up the great satire. It was your witty comments which prompted me and many of my friends to find out more about the way our nation is being run. Anyone who isn't interested in the way the world is turning these days shouldn't be reading MAD anyway, that's for sure. I have often thought about writing a gag letter to you, but this is more important to me.

Helen A. Harrison
Richmond Hill, N. Y.

I have read MAD since the 1954 10¢ comic book days. I have also been a member of the Teenage Republican League of Ramsey County since 1957. We have about 100 members in our club, and most of them read MAD. The TRLers enjoy the versatile way MAD informs them about politics. There are many more of us teenagers who feel that politics is and will always be an important part of life in the United States. John Spence is a complete "Shnoock."

John David Hanks
Chairman
Ramsey County TRL
St. Paul, Minn.

John Spence suggested that you cease publishing articles dealing with politics. Please don't! I care several "hoots" about the fate of the world. It ain't much, but it's all we've got.

Eric Partlow
Los Angeles, Cal.

In your Oct. issue, I noticed a letter from a youngster saying that he does not care for political satire. Please do not let that letter influence you in any way. I can assure you that your adult followers are more numerous than you think, and I believe your political articles are quite excellent, especially your appraisal of past and present presidential administrations in "A Child's History of the Middle 1900's."

David Bergman
Los Angeles, Calif.

I believe that the statements made in your Oct. issue about four of the country's leading politicians, three of which were Presidents of the United States and the other a Governor of New York, were senseless and a slap in the face to the American people. They should not have been printed. Now the American people know how stupid you are.

Jon Hartman
(No Address Given)

I have been a devoted fan of MAD for several years and have always enjoyed the magazine. But I have one complaint to make. I don't think you should make fun of something as serious as politics and elections.

Martha English
Chevy Chase, Md.

I noticed the letter from John Spence, who stated that he doesn't "care a hoot about politics." I wish to point out these facts: (1) I love MAD. (2) I take an interest in politics. (3) I enjoy your satires on the subject. And (4), it's time we teenagers started taking an interest in our country and in its government.

Richard Levy
Indianapolis, Ind.

Just want to bestow my praises on the fine—and badly needed—political satire in your latest issues. Thanks.

We never could understand why Rodgers and (the late great) Hammerstein bent over backwards to give their musicals a foreign flavor. For instance "Flower Drum Song" had a Chinese flavor, and "South Pacific" had a Polynesian flavor, and "Sound of Music" had an Austrian flavor, and "The King and I" had a Siamese flavor. What we'd like to know is: what's wrong with America? Certainly, any one of these hit musicals could have taken place in the good old U.S.A.! Take "The King and I", for example. All they had to do was ship the main characters from Bangkok to Hollywood, make a few small changes, and it would have come out as...

Don't let that bother you, Zelda! Everything will be all right if you do exactly what I've told you! Remember:

*Whenever you read a script,
Just strike a sexy pose;
That's all that you have to do,
And no one ever knows
You can't act!

When trying out for a part,
Just wear a low-cut dress;
That's all that you have to do,
And no one there will guess
You can't act!

The result of this deception
Is very strange to tell:
Though you may act bad,
The director will think
Your shape acts very well!

While testing for King Gazan,
Just walk your special way;
I'm sure that you'll get the part,
Because Gazan will say:
"She can act!"

Think of it, Zelda! Your
name in lights
—like mine
was twenty
years ago!

But what if
Mr. Gazan
doesn't
like me?!

With a figure like yours, he'll love you! I know King Gazan! Besides, it's in my contract that you get a screen test! Why else would I take a job as governess to his seven kids from his five previous marriages?? Baby... you just leave everything to Mama!

ACT 1, SCENE 2: THE OFFICE OF KING GAZAN:

My name is Bibi Va Voom! I'm the new governess Mr. Gazan hired for his children—

Oh, yes, Mrs. Va Voom! Mr. Gazan is expecting you. He hasn't arrived as yet. But Marilyn Van Mansfield, his most popular starlet, is meeting with the press in his office. You can wait in there, if you like . . .

PRIVATE

Tell us, Miss Van Mansfield. Is there any truth to rumor that your "on-stage" romance with Rock Garden will lead to wedding bells "off-stage"?

Are you crazy? Me—marry that creep?! Listen, boys, my romance with him is just part of the job!

*We kiss for the camera;
We hug for the lens;
When someone yells "cut"—
Then our romance ends!

He calls me "My darling";
I call him "My dear";
What I'd love to call him
Would puncture your ear!

Alone on the sound stage
With lights in our eyes,
I must follow what's in the book.
But somewhere inside me
A tiny voice cries,
"Behold—and please take a look—
Behold how I can't stand this schnook!"

Okay, boys!
Meeting's
over! Every-
body out!

Hiya,
King,
baby!

*Sung to the tune of "We Kiss In A Shadow"

Bibi Va Voom! Howya been, Honey?
This is "Sooky" Huntschalter, my
head publicity man . . .

I'll be right with you, Bibi! First
let me tell off this idiot starlet!

Marilyn, baby! How many times do I gotta
tell you never to say anything like that
to the Press! Sooky, here, broke his back
to get them to swallow that romance yarn
we cooked up between you and Rock Garden!

But, King! He's such a creep!
He makes me feel uncomfortable
when I go out with him!

I mean . . . his fingernails are
longer than mine! And that
perfume he wears . . .

Who cares! Women all over the country idolize the guy! To you he may be just a creep, but to me he's Big Box Office! Now you and your big mouth have killed the new picture I had planned for you and Rock to co-star in!

How do you like that dumb broad! Now I have to shelve a perfectly good script! I tell you, Sooky, she'll drive me nuts!

*She will not always say What we would have her say; Instead she'll up and say Something asinine!

The things she tells the press Don't bring us happiness; And what's the cause? One guess— Something asinine!

She says a thousand things, But she won't lie; And truth is something columnists Don't see eye to eye!

*Sung to the tune of "Something Wonderful"

I'd give her extra pay To shut her up each day But still she's sure to say Something asinine!

She's really not to blame; She's just a stupid dame; But she should learn this game Can be asinine!

Why do you have to shelve the script, King? My daughter, Zelda, could do the part!

Hmmm! She looks all right! What do you think, Sooky?

Could be, K. G.!

Okay, order Stage 7 ready for a screen test right away! I want to see it first thing in the morning!

ACT 1, SCENE 3: THE NEXT MORNING ...

For cryin' out loud, Bibi! What did you bring me? Another "Sex-Pot"! In your letter, you said Zelda was an "actress," et cetera ... et cetera ...

What are you getting so excited about, King, baby? There's always room for another glamour gal! Look at Liz Taylor!

You look! Every year she's nominated for the "Best Actress" award! It's not her figure they come to see, Bibi! Today, a gal needs "talent" to be a star and Zelda just doesn't have it! Remember, we're doing "arty" pictures in Hollywood these days! That's what the public wants! "Art"!

Art-shmart! Arty pictures will never make the money the old cornball stuff made, King! You think people have changed? Well, they haven't! Someday, you'll tell me I was right! Now you can find yourself another governess for your seven brats! I'm leaving ... and I'm taking Zelda with me!

ACT 1, SCENE 4: LATER, IN A HOTEL ROOM...

ACT 2, SCENE 1: TWO YEARS LATER. THE HOLLYWOOD MANSION OF KING GAZAN:

... and that's the story, Bibi! I'm down to my last ten grand! Guess I'll have to give up the business!

What for? Ten thousand is more than enough to make one of those sexy horror pictures that are so popular! Why not give one a try?

Why not?! I've really got nothing to lose at this point! What do you say, Sooky...

*Shall we hack? (Boom-boom-boom)
Shall we turn out the "Horrors" by the score?
Shall we hack? (Boom-boom-boom)
And present monsters never seen before?

HMM...

*Sung to the tune of "Shall We Dance?" (Reprise)

**SOME CAME RUNNING with
John Scott Trotter, Eddie Cantor and Skip Homeier

We'll make jack! (Boom-boom-boom)
With our new "Class Z" pictures,
And what's more—

We won't try to be "arty"
And produce another "Marty";
Arty films don't end up in the black!

Not like one corny feature
With "Godzilla"
or "The Creature"!

Shall we hack—
Shall we hack—
Shall we hack?

WHAT DO YA
WANNA DO
TONIGHT,
MARTY?

AH DONO—
WHAT DO YOU
WANNA DO,
ANGIE?

ACT 2, SCENE 2: KING GAZAN'S OFFICE THE NEXT MORNING...

What about my daughter, Zelda? She'd be perfect for pictures like that! She's in New York...

Great idea! Call her up! Have her in my office tomorrow morning!

Hi, cats!

We are not cats, young lady! But you are very definitely a DOG! Out of my office!

But... don't you recognize me?

Certainly! You're one of the extras we hired for the "Zombie" sequence! Report to Stage 2!

Mother! It's me!
Your daughter!
ZELDA!

Zelda! You poor kid!
What happened? Did
your plane crash?

No, silly! It's the new me!
I'm an **ACTRESS** now!
You know, Shakespeare,

got it! I've
got a great

ACT 2, SCENE 3: THE PREMIERE OF "THE MARTIANS MEET FRANKENSTEIN"...

... and that's
the story of
"The Producer
and I," girls!

My daughter, Zelda, learned
the **hard way**! So if you have
any **Movie Star** ambitions...

*Hello, young starlets, whoever you are;
I hope you can't act at all!
Talent is something that I **never** had—
But I used to have a ball!

Wear clothes, young starlets,
that show off your shape;
Be smart by playing it dumb!
You don't need talent to hypnotize men—
I used to leave them numb!

He has won the "Juan Gualberto Gomez" award (the equivalent of our Cartoon Society's "Ruben") six times. Among the things he showed us was this captivating cartoon-sequence of friendly rivalry called

Recently, a large Eastern University announced that it was preparing a complete four-year college course . . . to be given entirely on television! Needless to say, this opens up all sorts of fascinating possibilities. It would mean that, instead of going all the way to school to fall asleep in a stuffy classroom, a student will be able to stay at home and fall asleep right in his own stuffy living room. It would mean a lot of other changes, too . . . and not necessarily for the better . . . as this next vital article will show. Here, then, is a MAD report on what lies ahead for the unsuspecting student who enrolls in

Eventually, our educators, in addition to their academic degrees, will get special training in acting and make-up.

There goes that new Philosophy professor! Isn't he endsville!

Yeah! I just go mad over those "Method Teachers"!

And that's only the beginning! Because as more and more colleges offer courses on TV, competition for home-screen students will

We'll begin the questioning with Miss Dorothy Killgallen.

Sir, was this loan made to your country as part of our Mutual Security Pact?

Yes!

Could any country get this type of loan?

VISITING NEW ENGLAND

A Little About The Area And The People

NEW ENGLAND is a wonderful place to visit. The natives here will welcome you with open arms, particularly if your English isn't too broken, and you don't look too European. However, these little faults will be quickly overlooked the minute you start spending money. The native New Englander is famous for his shrewd business dealings, which is fondly referred to in local jargon as "Yankee Trading", and commonly known in legal terms as "Swindling." Being very thrifty, the people believe in saving their money, and also saving their words, so do not feel offended if they seem suspicious and do not speak to you. The fact is they rarely even speak to each other, except to compare the arrival dates of their ancestors.

There are many picturesque farms dotting the New England countryside, where the principal agricultural product is stones. However, many of these farms have recently given way to another booming New England industry known as "Summer Camps", where the principal agricultural product is Unwanted City Kids. Among the chief industries in New England is the manufacturing of Authentic Antiques. Countless factories turn out thousands of old butter-churners, rocking chairs, and spinning wheels daily, which are sold in quaint Colonial Roadside Shops. New Englanders are proud of their quaint Colonial structures, which include Colonial Pizzerias, Colonial Gas Stations. The Textile Industry is also important here, although many Textile Mills have been relocating in the South in recent years, where the demand for white sheets is greater.

Boston Harbor, a mecca for fishermen, is rich with the flavor of its contribution to America's heritage.

Vermont has no special style of cooking, as this typical meal of beef in maple syrup gravy, peas in maple syrup sauce, and fried maple syrup potatoes illustrates.

VISITING

A Little About The Area And The People

THE EAST contains some of America's most beautiful and breathtaking scenery. Unfortunately, nearly all of it has been covered up by cities, suburbs, thruways and carbon monoxide. The people of the East lead very busy lives, and sometimes appear to be rude, boorish and ill-mannered. This is not true! You will find they actually are rude, boorish and ill-mannered. Easterners are always in a hurry. They are in a hurry to make lots of money so they can eventually move from their crowded cities to plots of land in quiet green fields. These quiet green fields are called cemeteries.

The East is the center of industry in America. Many large companies are located here. These companies are very proud of their workers. Once or twice a year, the workers parade up and down in front of their buildings to remind the companies of how important they are. The companies are so impressed by this that they spend millions of dollars to develop complex machines which can perform the workers' duties and give them more time to parade.

The largest Eastern city is New York. Here, you can visit Wall Street, where financial tycoons amass huge fortunes investing in America's growing economy. Here, you can also visit The Bowery, where these financial tycoons end up when the economy slips a little. New York is famous for its many amusements. One of the most popular is the famous year-round underground thrill ride known as The Subway. Each day, millions of fun-loving New Yorkers enjoy this wild race through smoke, fire and possible suffocation. Another popular amusement, which can be enjoyed free in many New York parks, is called Mugging. The official language of New York is English, except in Brooklyn, Greenwich Village and along Madison Avenue.

Other major Eastern cities are: Philadelphia, which disappears completely after 10 o'clock at night; and Washington, the Seat of Government. The Seat is where America's policy-making brains are located.

North of Washington are Gettysburg and Burning Tree, two important commuter stops.

Any season is a good time to visit the East, chiefly because the people are so engrossed in making money that your arrival will make no difference whatsoever.

Washington's Smithsonian Institute enshrines America's inventive genius. Exhibits include Bell's first telephone, which revolutionized communications, Whitney's first cotton gin, which revolutionized agriculture, and Ford's first Edsel, which revolted almost everybody.

VISITING

A Little About The Area And The People

THE MOMENT YOU enter the South, you will find yourself suddenly transported into a more relaxed way of life. Southerners believe in taking it easy. In Tennessee, you will see leisure-loving mountain folk hardly move as they take careful aim and fire at U.S. Revenue Agents. In Georgia, you will see leisure-loving factory owners hardly move as they take careful aim and fire at Northern Labor Organizers. And in Florida, you will see leisure-loving land owners hardly move as they take careful aim and fire at Miami Beach.

The South is an area of picturesque beauty. In South Carolina, a hunter whistles softly to his faithful old bloodhound as he sets out to retrieve his favorite quarry, an escaped convict. In Mississippi, a cotton picker whistles softly to his faithful young wife outside her little red schoolhouse, as he waits to carry her books home.

Scenic farms, nestled far up in Southern hills, reflect quiet, industrious life of the people. Husband and wife work side by side to make "togetherness" a living word.

Southern hospitality is world-famous. Sprawling plantations feature stately old homes where visitors are welcomed by stately old Colonels. As soon as you enter one of these mansions and hear the strains of "Dixie" being piped through the Muzak speaker in the front hall, you will fall under the spell of Southern Aristocracy. After a sumptuous dinner of grits and possum, you may even be asked to join the men in the library as they smoke cigars and plot The Second Confederacy. You may even hear the famous slogan, "If at first you don't succeed, try, try again!"

Actually, the idea that Southern Aristocrats live in the past is absurd. Southern factories boast the finest in modern equipment. A recent study shows that 7 out of 10 Alabama cotton mills have installed electric fans to cool off workers who have to lift those 500 pound bales by hand. And the Acme Mint Julep Bottling works in Biloxi recently became the 100th Southern firm to institute a 40-hour week for its workers under twelve years of age.

The best time to visit the South is when stars shine on Alabama, because nothing can be finer than to be in Carolina in the morning.

VISITING THE MIDWEST

A Little About The Area And The People

IF YOU WANT to enjoy the beauties of spectacular mountain ranges, great expanses of forests, and breathtaking rock formations, then we suggest you skip the Midwest and go on to the next section. However, if you want to get to the heart of America, then you should go to the Midwest. Because it's just about in the center of the country.

There are many rivers in the Midwest, foremost of which are the Mississippi, the Missouri, the Ohio, and the Potomac Mill Creek. Once a year these rivers overflow their banks, causing a great deal of damage to life and property, and a great deal of discussion about dams, watersheds, flood control and other projects. But after a while, the rivers recede, and so do these discussions. There is also a great deal of discussion throughout the Midwest about price supports for the farmers. The Government would like to end these price supports, but it doesn't. Because such a move would result in farm foreclosures, starvation, and several dozen Congressmen being defeated for re-election.

The largest city in the Midwest is Chicago, which was made famous by Carl Sandburg, notorious by Al Capone, and unlivable by the Stockyards. Other important centers are Milwaukee, which was made famous by Schlitz, and Dodge City, which was made famous by CBS.

In Midwestern cities, there are many fine stores and shops, most of which rely on the trade of the farmer. The farmer usually comes into town to inspect the merchandise being offered by these stores. Then he orders what he likes from Mail-Order houses in the East.

The people of the Midwest are descendants of pioneer settlers who headed West in covered wagons and didn't quite make it all the way.

When to visit the Midwest is a tough problem. Neither Winter (blizzards) nor Spring (flash floods) nor Summer (dust storms and drought) nor Fall (the football season) provides a pleasant climate for the overseas visitor. If you must visit the Midwest, we suggest the evening of Sept. 3rd, between 6 and 8 P.M.

Midwestern winters are beautiful, with snows piled high on rooftops. Picture shows horse hitched to church steeple.

Nothing is as impressive as a Western sunset, when a brilliant fireball casts an orange glow on a breathtaking cloud formation like this one at Yucca Flats.

larly among ranchers. When a rancher gets old, he follows the traditional pattern of passing ownership of the ranch to his eldest son. The younger son then has the traditional choice of working for his elder brother, or burning down the ranch. The principle industries of the West include: building ghost towns for TV and Hollywood movies, and selling phony uranium and oil stock. The West is pretty wild, and since we'd rather not have any international incidents, we advise that you travel on to the Pacific Coast while you're still in one piece. But if you insist upon seeing it, the best time to visit the West is when the natives are home on the Range.

Las Vegas is rapidly becoming America's busiest playground, as this photo taken at height of 4:00 AM rush hour attests.

THE WEST is wealthy with scenic treasures. It is here that Mother Nature has taken her magic brush and painted a land of majestic mountains, towering waterfalls, and breathtaking mesas. With a master-sculptor's skill, she has carved out a wonderland of forest, rock and water. The only trouble is: nobody seems to want to live here! This is probably due to the limited job opportunities available. After all, how many American parents want to raise their sons to be National Park Rangers?

The overseas traveler can choose any of a hundred different methods to tour the West. If he goes by car it is suggested that he select one of the paved roads, both of which will be completed by the Spring of '63. By train, of course, is the most picturesque way to see the West, but be sure to bring along a cushion. Riding a mule train can get pretty uncomfortable. Air travel, although more expensive, affords the added convenience and thrill of landing at many remote, scenic Western areas, like the sides of mountains.

The people of the West welcome tourists, this being the only way they get news from the outside world. Family ties are strong here, particu-

VISITING THE

A Little About The Area And The People

THE PACIFIC COAST is divided into two major sections: Washington, Oregon, and California in the north, and Los Angeles in the south. The northern part features rugged, wild scenic attractions such as Mt. Ranier, Crater Lake, Yosemite National Park and Senator Wayne Morse. This is the area that has given America its two oldest and most durable living things—the giant redwood trees, and Bing Crosby.

The southern section, Los Angeles, is bounded by the Pacific Ocean on the west, San Francisco on the north, Las Vegas on the east, and Smog on the south. The government is a Constitutional Monarchy, headed by Frank Sinatra. The overseas tourist will enjoy participating in the traffic fatalities at Hollywood and Vine, being mistaken for a waiter at the Brown Derby Restaurant, and strolling across the mined front lawns of movie stars homes in Beverly Hills.

No visitor should miss the annual Hollywood Divorce Festival, staged by the Academy of Motion Picture Arts and Sciences, and featuring Jerry Geisler. This hilarious spectacular lasts from January to December.

The people of the Pacific Coast are cut off from the rest of the U.S. by the Rocky Mountains. This geographic isolation causes the inhabitants to believe they are in another world. And they act and dress accordingly. Sun glasses, long cigarette holders, tight sweaters and form-fitting leotards is the accepted attire, for both men and women. The young people of the area are sport-minded, but are usually off the streets before dark. They can then be found in the numerous parking spots around, resuming their sport. An important industry of the section caters to the old people who come there from all over the U.S. This industry is known as Pinelawn Cemetery.

The best time to visit the Pacific Coast is on Mondays or Tuesdays because the weekends, which begin on Wednesday and last through Sunday, are quite hectic and should be avoided in the interest of mental health.

Motorists often stop to marvel at the majestic beauty of Washington State's rich timberlands.

Californians are enthusiastic proponents of the life of leisure, and equip their homes with the necessities for gracious living, like barbecues, swimming pools, patios, and producing oil wells.

He is the hero of the play.
The play is named after him.

It is lucky Hamlet had such an elegant name.

Hamlet says, "Something is rotten in the State of Denmark!"

That also figures.

"Hamlet" is a very interesting play.
It contains stuff to make you think.

It also contains:

Three fatal duels,
Two suicides,
One poisoning,

"Hamlet" is a good play for children.

It is much better than reading violent comic books.

 Why is Romeo climbing Juliet's trellis?
 That's how teenagers smooched in those days.

 After all, you can't go around climbing trellises

 Today, Romeo would use the stairs.
 Or better still, park out front and honk.

 He certainly wouldn't climb Juliet's trellis.
 He'd be arrested as a juvenile delinquent.

This is Juliet.
 She wants to marry Romeo.
 Silly gym bloomers and all.
 Which explains the dunce cap.
 But Juliet's daddy has forbidden the marriage.
 Forbid, forbid, forbid.
 This has made Juliet very sad.
 She has been very quiet ever since.

 Juliet has always been a quiet girl.

 Why is Juliet so quiet?
 Because she has committed suicide.
 Too bad, Juliet.

 Then you could have gotten married.

"Why don't kids read the classics anymore?" MAD submitted this question to ten of our top Educators in order to find out. Unfortunately, nine of them ignored us completely. However, the tenth submitted a 14 page treatise that probed deeply into the reasons. But we couldn't understand all them big words he used, so we decided to answer our own questions ourselves: the reason kids don't read the classics anymore is because they're not properly introduced to them at an early age. Why not start youngsters off with simplified versions of the classics, like I'll instance these, in...

NGS AND CHEERS TISTS AND COWARDS

WRITER: LARRY SIEGEL

THE GIRL OF MY DREAMS

(to the tune of "The Sweetheart of Sigma Chi")

Oh, the girl of my dreams is the ugliest
Of all the girls in school.
A homely dog, with no brains at all;
She earns much ridicule.
Oh, the men of Pivnick may make fun of my love.
But my dreams they can never spoil.
I adore her so—
My love's blind 'cause I know
That her father owns Standard Oil!

PRAY, PRAY FOR OLD PIVNICK TECH

(to the tune of "Cheer,
Cheer for Old Notre Dame")

Pray, pray for old Pivnick Tech;
We're gonna get it right in the neck!
Send a sound of Taps on high,
As our whole team lays down to die!
What though the odds may be great or small,
Old Pivnick Tech will fumble the ball,
While her undergrads get sick and
Transfer to U.S.C!

DIG A HOLE, OLD PIVNICK

(to the tune of "Buckle Down, W'nsokt")

Dig a hole, old Pivnick, dig a hole;
When the foe comes, Pivnick, better dig a hole.
If you dig it deep, and inside you leap,
Then you'll never weep if you will only dig a hole.
They look tough, old Pivnick, they look tough;
And they're tough, old Pivnick, oh, they're very tough.
They are here to win, and to smash your chin,
But they can't begin if you will only dig a hole.
If you dig, you'll chuckle and retreat (and retreat)
If you dig, go 18,000 feet (thousand feet)!

Dig to China, Pivnick, all the way;
Hit Hong Kong, old Pivnick, and you'll save the day.
If you stay alert, if you hide in dirt,
Then you won't get hurt if you will only dig a hole!

After listening to hundreds of college songs which pledge an undying loyalty and eternal victory to Alma Mater . . . and after hearing hundreds of cheers urging the team to "Hit 'em again, Harder!" as an opposing player is carried off the field withering in pain, we have come to an important conclusion . . . namely, that people who write, sing and yell these songs and cheers are super-loyal to their schools, incorrigibly optimistic and quite obviously sick. On to the fray!
Grind their bones to clay, clay, clay, clay!
We're mighty Pivnick men—
Stal-wart and strong!
We'll beat the Vis-i-tors as
Soon as we conclude this modest song!

(no particular tune, but warm and sincere)

Hail to thee, fair Alma Mater,
When thy hallowed campus calls,
We'll come back, each son and daughter,
Back to kiss thy ivy walls.
We'll hug thy labs, thy Dean of Women;
We'll clutch your trees in fond embraces;
And with our joyous hearts a-brimmin',
We'll peck your profs upon their faces.
Alma Mater, Alma Mater,
We love you so, it drives us mad,
That if they dared to come between us,
We'd even give up Mom and Dad!

ON BRAVE PIVNICK
(to the tune of "On Wisconsin")

On, brave Pivnick!
On, brave Pivnick!
Show 'em we've got spunk!
Suffocate them!
Decimate them!
Leave them all for junk!
Send a roar up!
Roll the score up!
Stomp them into mud!

And final proof comes when you check a scale. Mainly, you can't even see a figure because of your own figure.

The thought weighs on your mind (adding to problem) when neighbors start dropping friendly little hints like —

The first hint that perhaps you are a trifle overweight comes when you find yourself wedged into a revolving door.

Well, folks, I see the captains are coming out for the toss of the coin, so without further ado, here is the man who will toss that coin... a former All-American, before he was caught throwing a game, your referee and mine, the comedy star of the afternoon, George "I Can Be Reached" Fortescue! Let's hear it for George!

Also, some time during the game, they may attempt a field goal. When that happens, we'd like you all to scream, "Block that kick, block that kick!" For those of you who are here for the first time, we don't want you yelling this on the kick-off. Last week, some over-enthusiastic player heard it and actually blocked the kick-off...

Some time during the game, players may be injured. I'm not promising, but if a boy does get belted, and he's lying there, writhing in agony, we'd like a little rapt silence. Let's hear some rapt silence, folks...

Fine! And if he should get up and limp off the field, we'd like a big roar of applause! Remember, you're applauding the injured player, not the guy who clipped him...

These are always exciting meetings, folks. You may recall that one of our Directors committed suicide last year, right after the financial statement was read! So stick around to the end, because anything can happen!

Oh, there will be no box lunches this year due to the incident last year — when someone threw an American Cheese sandwich at the Board. There will be a snack after the meeting, though, when the Directors are safely on the train.

Last year, a stockholder stood up and said that "Spineless men were running Potrzebie"! Let's not have that again! Remember, it's these spineless men who are the very backbone of our company!

WARM-UP TO A STOCKHOLDER'S MEETING

Hi, minority stockholders! I'm Cliff Hanger. Welcome to the annual meeting of Potrzebie Electronics. Now, when the annual report is read, let's not have any moaning or groaning. Just a few quiet gasps of dismay! Can we try it? Let's hear some gasps of dismay —

A little more dismay next time . . .

Now that you've blown off steam, just remember that Electronics is a growth industry, and Potrzebie has a unique position in it. Because from where we are now, all we can do is grow!

By the way, you're in for a surprise special dividend announcement. For the 19th consecutive year, Potrzebie will not pay a dividend! So let's hear it.

Now, when the Board of Directors votes themselves another raise, let's try to keep the protests down! After all, the mother of the Chairman of the Board is here! Just think how she'll feel when you start insulting her son! And let's not scream at the Treasurer's report, either! Mrs. Smythe is a fine woman, she's been our Treasurer for years, and her son is Chairman of the Board!

WARM-UP TO A FOOTBALL GAME

Hi, sports fans! I'm C. D. Divots, the stadium caretaker. We've got a great game lined up today, despite the fact that our star quarterback is in jail for tax evasion, and won't be playing. So perhaps the contest won't be quite as close as our 80-0 defeat last year. Speaking of last year's game, how many of you have ever seen a football game before? Let's see — 70 or 80 thousand?

A little more sarcasm next time . . .

Now, at the end of the third quarter, a dog is going to run out on the field, and the referees are going to look pretty foolish trying to chase it off. When that happens, we'd like a little sarcastic laughter at the expense of the referees. So let's hear a little sarcastic laughter, everybody . . .

Now, I've got a little surprise for all of you! I'd like to introduce the dog that's going to run out on the field! Here he is — direct from last week's "Game of the Week", that great game-disrupter, America's most obstinate dog — Lassie, Son of Ladi! Let's hear it for a great champion mutt . . .

I'd like to introduce a man you'll be seeing a lot of the next few days — a District Attorney with a 100% record for convictions, despite the fact that more than half were proven innocent after their electrocutions — your D.A. and mine, Thomas E. Dewhanty...

Let's hear it for Tom...

I see we've still got a few minutes, so why don't you all turn and shake hands with your neighbors. You'll be meeting some key witnesses that way, and if Irving is innocent, as he says, he is, you may even be shaking hands with the real axe murderer! Wouldn't that be exciting? So let's all shake —

And now, it's time for the trial. So here he is — a man whose term on the bench has been marked with high fines and stiff sentences — a record-holder for the most objections over-ruled in any court in America — a man who is as mean off the bench as he is on — the Honorable Judge Learned Elbow...

WHENEVER AN AUDIENCE ATTENDS A LIVE TV SHOW, THE

Hi, folks! I'm your typical warm-up announcer, Wayne Payne, welcoming you to the Johnny Ernie Show. How many of you have ever seen a TV show before? 8 or 9, eh? Well, first, let's all get acquainted! Everybody shake hands with his neighbor! See? New York is really a friendly town after all...

During the show, you may see me waving at you like this. That doesn't mean I want you to wave back! It means something tremendously wonderful has just happened — like a commercial — and we want you to applaud! Let's test your applause for our sound man. Give me a fantastic sea of applause...

Great! I asked for a sea of applause — and you drowned me! Ha-Ha Himmrm... Which brings us to point number two — don't be afraid to laugh! We want you to laugh! So laugh it up whenever you hear something funny. And don't worry if you're not sure whether it's funny or not, because we've got a sign here to tell you when something's funny!

"WARM-UPS"

WARM-UP TO A COURTROOM TRIAL

This is known in the TV industry as a "Warm-Up". It's supposed to get the folks who are about to watch the show into a responsive and receptive mood. Which is always a good idea, especially

Hello, crime-lovers! I'm your Bailiff, Jack Swearin. We've got a great trial lined up today — movies of the crime, a blue-ribbon jury, a hanging judge, and that infamous murderer, kidnapper, and notorious double-parker — the man we're trying today — Irving "Skip" Townes — so let's hear it for Irving...

Now, when the judge comes in, let's have no applause! Just stand up! But, later on, when the District Attorney makes a telling point, we'd like you to react with an excited hub-bub — and keep up that hub-bub till the judge threatens to clear the court. So let's hear an excited hub-bub —

A little more excited next time...

Now, we all know the odds are 5 to 1 that Townes gets the chair. Yet, when the "guilty" verdict is delivered, we still want some surprised "ooohs" and "aahs" from the crowd to make it look good. And if, perchance, the verdict is "not guilty", well, let yourself go! Try shrieking, fainting or screaming!

"ADVANCED" EDUCATIONAL TOYS

These are tougher to have fun with

"Advanced" Educational Toys are specifically created for educational purposes, so they present a challenge. But with typical childish ingenuity, kids manage to have fun with these too...

"ADVANCED" EDUCATIONAL TOY... AND HOW CHILDREN OVERCOME IT

Arithmetic is boring, so kids drive stake in ground, toss plastic numbers at it. Only addition now is 3 points for ringer, 2 for touching, and 1 if inside box toy came in.

EDUCATIONAL SCALES

Teaches children addition and subtraction: Precision-made plastic numbers weigh just right amount so that when hung on scales in combination, they give correct answer.

EDUCATIONAL PUZZLE MAP

Teaches children the geography of the U.S.A. Takes only a few years of constant removing and putting back the interlocking states to finally memorize where each one goes. Makes your child a patriot, or a frustrated idiot.

EDUCATIONAL PHOTO KIT

Teaches kids principles of photography. Contains parts for building box camera, six rolls of film, complete developing and printing supplies. Offers hundreds of hours of instruction and enjoyment.

Kids find that putting Texas where Rhode Island belongs doesn't work, so pieces start turning up in Potzi games, April Fool sandwiches, and X-Ray films of baby's stomach.

Camera is too difficult to assemble and resultant photos aren't worth the trouble anyway. Kids get a big bang out of exploding the flash bulbs, making stink bombs from film.

"SIMPLE" EDUCATIONAL TOYS

"Simple" Educational Toys are actually *phony* educational toys because they're just *ordinary* toys with an educational gimmick added to increase sales. Here are some typical examples...

"SIMPLE" EDUCATIONAL TOY ... AND HOW CHILDREN OVERCOME IT

Musical top has convenient handle for use when banging on tin wash tub. Kids enjoy listening to sounds of good loud noise much more than listening to sounds of good music.

Upon receiving game, kids start playing better one called "matching cards". When all are lost, they ask for another game. Parents are delighted kids wore out game learning.

The only place on Earth kids are interested in is their own backyard, so they take inflated globe there. Because it's just about the exact size of a regulation basketball.

****DON'T GO NEAR THE WATER with**
Veronica Lake, Lily Pons and Turhan Bey

EDUCATIONAL MUSICAL TOP
Teaches children to appreciate good music. Plays only classical selections, including: "Fugue for Violin and Police Whistle" by Shamus; "Eine Kleine Spielzug" by Tsotski; and "Air on a G-String" by Tempest Storm.

EDUCATIONAL PICTURE CARDS
Beautifully illustrated question and answer cards cover 100,000 subjects. Guaranteed to give children who play with them a well-rounded education, preparing them for daily life, quiz shows, and just plain showing-off.

INFLATABLE PLASTIC GLOBE
Inflatable vinyl sphere imprinted with countries of world in full color. Sets up in seconds for handy reference. A must for educating our children about Earth that may exist when they grow up.

Toy manufacturers try to win sales by appealing to parents with claim that Educational Toys kill two birds with one stone—Playing and Learning. "It's like extra schooling!" they say. Kids would like to kill several more birds with same stone, namely kill-joy Toy Manufacturers.

Don't bother coming in any more, boys! I just rented this machine that'll do both your jobs for 40¢ a day! Sorry, but that's progress!

Last year, a realistic-type half-hour TV series called "Naked Town" went off the air because of poor ratings and lack of audience interest. So this Fall, with typical TV-mind logic, the network heads decided that, instead of a realistic-type half-hour TV series called "Naked Town", they would put on a realistic-type *full-hour* TV series called "Naked Town". That way, they'd have a show which could be ignored by twice as many people as last year. We don't know how long this new series will last, but here's what could happen to knock it off the air even before the first Trendex ratings for the Fall are in on...

MAD COMIC STRIP

I had just finished reading your magazine when I decided to read something more worthwhile, like a newspaper for instance. No sooner did I turn the page than I saw the enclosed comic strip. What gives? I mean everybody seems to be thinking your way these days. Well, if you can't beat 'em, join 'em!

This morning, I came across this in "The Jackson Twins." What goes? Is everybody going MAD?

MAD PROBLEM

I will start by saying that I have a cabana at the Fontainebleau Hotel. This is good. Next, I will say that I read MAD. This is bad. Members of the cabana club are issued cards which they are to show to the man at the gate. Most don't. For two years, I was never stopped and asked for my card. Last time, I took my MAD with me. Holding it under my arm, I proceeded to walk through the gate. For the first time in two years, I was asked for my card. Was it because I was carrying my copy of MAD?

Steven R. Berger
Miami Beach, Fla.

No, it was because you forgot to wear your pants!—Ed.

MAD HISTORY BOOK

In issue #58, there is an article called "A Child's History of the Middle 1900's." I am a loyal fan of MAD's, and I am shocked to find an article based on fact. You guys better watch out or you'll educate your readers above the level of reading MAD.

Dale Peterson
Perth Amboy, N. J.

Referring to your "History Book" article, it is all too true of the education we are receiving. It is unfortunate that MAD must bring to light such facts.

Jack Levin
Millburn, N. J.

Your "History of the Middle 1900's" was an excellent presentation of a serious problem in our modern texts. Not only did your article point up the American grammar school "brainwashing" system, but it also took advantage of the opportunity to show us some of the major problems, social and political of the twentieth century. Your keen insight and effective treatment of today's issues make your magazine truly "educational literature." Keep up the good work.

History Major

College Park, Ga.

SYMPATHY

I really sympathize with you guys in respect to all the letters you get pointing out the boo-boos you make. If the clouds who write them would only look at some of the other popular magazines, they would notice they're not perfect either. Besides, you MAD boys have too many worries already, like finishing where your next meal is coming from! Jim Conlan
Birmingham, Mich.

LETTERS OF THANKS

This letter is written in thanks. Thanks to you for publishing a magazine in which a wonderfully delicate art still lives—the art of satirical criticism. It is so exciting to read your magazine month after month (I have been reading MAD since the very first issue), and I find you consistent in your wit, style and wonderful choice of material. It is thrilling to think that your publication is the only intelligently written magazine today that speaks out in a humorous way against the "Well - I - didn't - like - the - show - but - how - about - that - cute - commercial?" and "Ah - you - criticize - too - much!" society in which we seem to be living. As a speech teacher in an Atlantic City high school, I have suggested reading MAD to some of my students so that they may achieve a better insight into things going on around them, things to which they had been almost oblivious. Let me repeat my thanks to you (Mr. Editor) and to your wonderful MAD staff of writers and illustrators for not "selling out" to the clouds who seem to be running our society these days. Thank you for remaining true to critical minds and senses of humor all over the world. I think your material is comparable to the works of Dorothy Parker, Robert Benchley, Ogden Nash and all of our American satirical humorists. Thank you for being just a little bit MAD.
